

DIGITAL TELEPHONE VOICE MESSAGING

SETTING UP YOUR VOICE MESSAGING

1. Dial your telephone number.
2. When the prompt begins, press the star key and enter the last four digits of your telephone number (your password).
3. At this time you will be prompted to change your password. After completing this, confirm your password.
4. Follow the prompts to change any other personal options such as recording your name, setting up a personal greeting and more.
