

How to Use Your DIGITAL TELEPHONE

Setting Up Your Voice Messaging:

- 1 • Dial your telephone number.
- 2 • When the prompt begins, press the star (*) key and enter the last four digits of your telephone number (your password).
- 3 • At this time, you will be prompted to change your password. After completing this, confirm your password.
- 4 • Follow the prompts to change any other personal options such as recording your name, setting up a personal greeting and more.

Voice Messaging Flow Chart:

*User must have email address defined for this command to work.
